Aloe Vera
Rosemary
Chamomile
Nettle
Sage
Botanical Sea Extracts
Special exclusive plant extracts

Grime Eater’s “Green” policy is your guarantee that we are actively researching the market for new and innovative ingredients that are unique, effective and safe – both to the earth and to the consumer.

Grime Eater® Products Limited was established in 1982 by the original owners of Luster Sheen®, a brand name trusted by Canadians as a quality hand cleaner. Years of research and thousands of experiments took place prior to the launch of the new company. We had one sole vision in mind, Grime Eater was to be innovative and unique in our approach to cleaning and conditioning the hands. We recognized that Canadians face working conditions and temperature changes that are quite different than those in other countries and as such it was time for a 'Made in Canada' solution. Grime Eater has and always will remain dedicated to this standard of excellence.

Thanks to the support and loyalty of our customers, Grime Eater has expanded over the years to now offer a full line of soap products. In addition to our name brands, we also offer private label for all markets such as: automotive, industrial, janitorial, commercial and grocery.

Key trademarks now include:

Grime Eater®
Natural Orange®
Natural Pearl®
Luster Sheen®
Kool Splash®
1st Response®
Power Maxx®
Response™

Grime Eater Products fully supports and is committed to the environment and a sustainable planet. To this end, we have created our own Grime Eater 'Green Policy'. This is our 100% commitment to offering premium products that are as safe to the earth as they are to use.

We thank everyone for your kind support and loyalty over the years and we look forward to growing with you in the future.
